Would you kindly forward this thoughtful message from Radim Sram to Larry Reiter. I am not sure if address I used is current for Larry.

Bob and Peter will remember good science and good times with Radim during this innovative collaboration.

Hard to believe it started 25 years ago!

Thank you , Sally

Dear Bob, Sally and Larry,

Springer-Verlag London just published book „Air Pollution and Health Effects“, where is our chapter 7 : Molecular Epidemiology Focused on Airborne Carcinogens. There we acknowledged Joellen and your support to establish this field in the Czech Republic. It is a nice coincidence it was published just 25 years when we started together Teplice Program.

With all best wishes and love from Prague,

Yours

Radim
